Presentation of Medal and Certificate of Merit to Father of Private First Class Milton Lee Olive III.

By unanimous consent Honorable Richard J. Daley, Mayor, thereupon presented to the members of the City Council Mr. Milton Lee Olive II, the father of Private First Class Milton Lee Olive III, who on October 22, 1965 became the first Chicagoan to sacrifice his life in the Viet Nam conflict.

On that fateful day Private First Class Olive grabbed a grenade, tucked it under his stomach, hunched over it and permitted it to explode, thereby saving the lives of his comrades. The Mayor stated that Mr. Olive and his family will be in Washington on April 21 to accept from President Johnson the posthumous award of the Congressional Medal of Honor to his heroic son.

The Mayor stated that he and all other Chicagoans join the Olive family in their grief at the loss of this fine young man who had served our country with such distinction and by his action had also brought honor to the City of Chicago. He thereupon presented the Medal and Certificate of Merit to Mr. Olive as the City's official recognition of his son's heroism.

Mr. Olive thanked the Mayor and Aldermen for the tribute to his son's memory. He remarked that he felt that his son's bravery in Viet Nam should give definite proof to the country that Negro Americans are loyal and devoted citizens who carry their share of the nation's military burden. He also thanked the Mayor and people of Chicago for the sympathy extended to the Olive family, the depth of the grief being evidenced by his remark "that it is not easy to be the father of a hero".

Mr. Olive was accorded a standing ovation by the members of the Council and assembled visitors.

Presentation of Trophies to Mayor Daley's Youth Foundation Wrestling Team.

Honorable Richard J. Daley, Mayor, thereupon called to the rostrum Werner Holzer, Captain of Mayor Daley's Youth Foundation Wrestling Team which had won the National Team Championships in both Greco-Roman and Free Style Wrestling in contests held at Lincoln, Nebraska.

Captain Holzer then introduced his teammates, Tom Tisone, Fred Rolak, Steve Combs, and Stan Wulf, each of whom received his trophy to the warm applause of the City Council and assembled guests.

Alderman Metcalfe addressed the Council and asserted that the various teams of the Mayor's Youth Foundation are engaged in athletic activities that shows Chicago to be aggressive and progressive in advancing the welfare of Chicago's youth, and that other cities are attempting to follow Chicago's leadership in this field.

REPORTS AND COMMUNICATIONS FROM CITY OFFICERS.

STATEMENT OF MAYOR RICHARD J. DALEY CONCERNING REFERENDUM FOR BOND ISSUES.

The Mayor thereupon read to the City Council the following statement, which was, on motion of Alderman Keane ordered published in the Journal of the Proceedings:

CITY OF CHICAGO
OFFICE OF THE MAYOR

A STATEMENT BY MAYOR RICHARD J. DALEY CONCERNING THE JUNE REFERENDUM ON BOND ISSUES.

A group of prominent citizens representing membership of labor, business, real estate, and various civic and neighborhood groups last March requested the city to offer a referendum on a new bond issue to the citizens of Chicago.

The citizens group, headed by David Kennedy, Chairman of the Executive Board of the Mayor's Committee of Economic and Cultural Development and Board Chairman of the Continental Illinois National Bank and Trust Company stated that the objectives of the proposed bond issues should be several fold, including:

"Improvement of living conditions in Chicago by meeting the needs of safety, health, and economic well-being;

"Continuation of the city's program of public improvements;

"Meeting the problems of local neighborhoods in Chicago through community improvement programs, and attraction of new industry, commercial activity, and residential development by encouraging private investment in the city's economy through investment in public improvements."

The citizens group stressed that a proposed bond issue, if approved in a referendum, could be floated without any increase in Chicago's annual taxes.

It pointed out that " a constant program of public investment has caused a dramatic change in our city in the past twenty years, while, at the same time, Chicago has the lowest per capita bonded debt of any of the largest cities of the United States."

The citizens group emphasized that unless a bond issue was passed to provide public improvement funds, such essential programs as street lighting, sewer construction, community improvement programs, incineration, new police and fire stations, and the expansion of mass transportation would have to be halted because of the lack of funds.

In a response to the citizens group request, the city's department heads presented a comprehensive capital improvement program which would achieve the objectives of the group. These proposals, to be undertaken in four to five years, were presented in detail and endorsed unanimously.

I have submitted for consideration by the City Council an ordinance providing for the submission to the electors of the City of Chicago, Cook County, Illinois, on June 14th the questions of authorizing the issuance of bonds of the City of Chicago for the several purposes described.

All of the projects proposed extend and improve services and facilities for the people of Chicago, constituting a coordinated program which deals with the basic needs of the people—their safety, health and economic well-being.

This administration is pledged to expedite the Public Works Program as much as possible. This policy is based upon the principle that our citizens should enjoy the benefits of capital improvements as quickly as possible. The results of this program are visible throughout our City.

All of the proposed projects are part of a well-planned comprehensive capital improvement program and are an integral part of the City Comprehensive Plan which is now being implemented by the Department of Development and Planning. The continuing program is in complete accord with the financial ability of the City. It is based upon the principle of bringing benefits directly to every area and to every neighborhood.

The total of this overall program of city improvement amounts to $195,000,000. It provides funds for improvement and expansions of services and facilities essential to the welfare of our City and people, such as street lighting, sewers, community improvement, police and fire stations, mass transportation, construction of incinerators, municipal buildings, Department of Health Centers, House of Correction and Navy Pier.

These improvements, which will benefit all of our citizens and all of our communities, will not cause an increase in the City's property tax. The City will commit authorized bond issues only as the money is needed and contracts are let. The retirement of previous bond issues will permit the scheduling of new bond issue maturities without increase in taxes.

This bond issue is being submitted so that we can achieve our common objectives to provide a decent home for every family, rid the metropolitan community of slums and blight, improve facilities that will enable our police, fire, health and sanitation departments to give better protection and service to the people, and to make all of our neighborhoods better places to live and work for every family.

This is our goal. This is our commitment.

Here are the proposals:

Street and Alley Lighting—$20,000,000.

Chicago's Street Lighting Program is one of the most outstanding in the world and has contributed directly to Chicago's excellent record of reducing traffic fatalities and accidents. The savings in nighttime travel costs are beyond measure. Modern street lighting has been a vital factor in the city's outstanding record of reducing crime while crime is increasing throughout the nation.

The last Street Lighting Bond Issue of $25,000,000 was approved in 1959. All of the funds have been expended. There are several lighting projects that need to be done. The proposed $20,000,000 Bond Issue will, for the first time in history, in any large American City, provide for the installation of lighting in all alleys. It will also provide for the completion of the Street Lighting Program.

Alley Lighting.

The alley lighting program provides for installation of lighting in all of the alleys of Chicago. The program, recommended by Superintendent O. W. Wilson, is a new concept for the City which will lead to a reduction in crime and make our alleys safer and more convenient for all residents. This program will cover 2,240 miles of alleys and require approximately 55,000 lamps.

Total—$13,000,000

Street Lighting.

The program for street lighting includes the illumination of 278 unlighted or poorly lighted railroad underpasses. This new program will make underpasses safer for both pedestrians and motorists. The street lighting bond issue will do much to continue Chicago's outstanding achievement of being the safest big city in the nation. The following improvements totalling $7,000,000 are recommended:

1. Provide modern lighting for newly developed areas of the city.....$1,200,000
2. Complete the program of lighting 278 unlighted or poorly lighted railroad underpasses .....$ 500,000
3. Improve lighting along former park boulevards and in park areas....$ 700,000
4. Improve lighting intensity and equipment along 150 miles of arterial streets $1,500,000
5. Upgrade residential lighting by converting 1,500 incandescent to mercury vapor fixtures and replacing 15,000 old style fixtures for better operating efficiency $1,200,000
6. Complete program of providing increased lighting in approaches to arterial streets $1,900,000

Sewer System Expansion—$46,000,000.

The sewer system of Chicago is one of the largest public utilities in the nation and has played a vital role in safeguarding the health of the people.

A proposed bond issue of $46,000,000 will provide for the design and construction of 63 miles of trunk sewers in order to increase the capacity of inadequate drainage systems in those communities of Chicago which experience the worst effects of flooded basements and street viaducts after major storms.

The auxiliary outlet sewer program has already benefited 1,500,000 persons from the nearly 155 miles of sewers previously constructed. The new program to be undertaken in the next four to five years will directly benefit approximately 500,000 persons and will include design and construction contracts for portions of community areas identified with the following sewer systems:

West-Southwest.

Leamington Sewer System: Garfield Ridge, Gage Park, Chicago Lawn, Ashburn, West Lawn

California Sewer System: Brighton Park and New City

Laflin Sewer System: Near West Side and Lawndale

Natchez Sewer System: Garfield Ridge and Clearing.

Kostner Sewer System: Austin

South-Far South.

Mt. Greenwood Sewer System: Mt. Greenwood

Normal Avenue Sewer System: West Pullman and Roseland

Beverly Calumet Sewer System: Beverly and Washington Heights

Central South Sewer System: Englewood, Woodlawn, Grand Crossing, Hyde Park, Kenwood, Auburn, Gresham, South Shore, South Chicago

Near South Side Sewer System: Near South Side.

North-Northwest.

Howard Sewer System: Edison Park

Eastwood-Wilson Sewer System: Portage Park, Albany Park, Irving Park, Norwood Park, Jefferson Park

Edgebrook Sewer System: Edgebrook

Foster Sewer System: Foster-Cumberland

Roscoe Sewer System: Dunning

Birchwood Sewer System: West Ridge, Rogers Park

Berwyn Sewer System: North Park

Pratt Sewer System: West Ridge, Rogers Park

Berteau Sewer System: North Center, Lakeview

Blackhawk Sewer System: Humboldt Park, West Town

Near North Area Sewer System: Lincoln Park, Near North.

Community Improvement Program—$50,000,000.

To carry out our commitment of providing a decent home for every family, to eliminate slum and blighted buildings, and to improve our neighborhoods and communities, a bond issue of $50,000,000 is recommended. These funds will permit the expansion of programs of rebuilding and rehabilitation, provide for moderate income housing, expanding home ownership, and assist neighborhood organizations in their endeavors to conserve and better their community. This community improvement program will help to attract new industry and residential development by encouraging private investment.

Chicago may reasonably expect to be able to obtain during a four or five year period approximately $140,000,000 in federal capital grants under provisions of the Housing Act of 1965. These funds will be available to the city, provided $50,000,000 of local matching funds are available.

With an additional $20,000,000 in capital improvements eligible as non-cash credits. the city can carry forward a total program of $210,000,000.

The resulting community improvement program would enable the City to achieve its objective of eliminating all slum and blighted buildings and provide funds for further improving and protecting neighborhoods which have upheld their standards.

The approval of the bond issue would permit the City to carry on a broad program of community improvement. The major emphasis will be on rehabilitation, rebuilding and conservation. Pockets of blight, which have often been the breeding grounds for further deterioration in otherwise stable residential areas, would be removed and would provide a stimulus for private redevelopment and rehabilitation. The construction of moderate income housing would be encouraged in all areas. Industrial projects would be developed to encourage the location of new industry and expansion of existing industry. Major neighborhood shopping areas would be redesigned to provide for parking facilities and malls, and plans would be developed to reduce obsolete strip commercial sectors, which presently are occupied by vacant stores causing deterioration of neighborhoods.

Neighborhood Centers to provide rehabilitation and other assistance to property owners would be established. Programs will be designed first to prevent decay and deterioration; and, second, to improve the residential environment by providing rehabilitation services, loans and grants, and additional community facilities.

These programs will be carried on with the cooperation and consultation of community agencies and residents of the area.

Redevelopment projects will be carried on where buildings are beyond repair. The principal aim will be the construction of moderate income housing and assistance will be given to those groups who desire to construct not-for-profit or limited dividend corporations, who will construct housing for moderate income families. Public Transportation—Rapid Transit $28,000,000.

The expansion and improvement of mass transportation facilities is essential to meet the transportation needs of many thousands of our citizens. Both the Kennedy and Dan Ryan Expressways were constructed to provide right-of-ways for high speed rapid transit to neighborhoods now without this convenient service. Extensions will contribute directly to the reduction of congestion in the expressways and arterial streets. It is estimated that more than a million and a half people will benefit from these improvements.

The proposed bond issue of $28,000,000 is needed to match anticipated federal funds of $50,000,000 to expand the rapid transit system in the Kennedy and Ryan Expressways and make improvements throughout the existing system.

Kennedy Expressway Extension.

It is proposed to expand the rapid transit from Logan Square via a subway along Kedzie Avenue or Kimball Avenue to the Kennedy Expressway and within the median strip northwest to Milwaukee Avenue and Central. This five mile expansion is estimated to cost $45,000,000. For greater convenience and to assist the elderly, stations will be provided with escalators and located at Belmont-Kedzie, Addison, Irving Park-Pulaski, Montrose, Lawrence and at Milwaukee-Central, with an enclosed interchange with the Chicago and Northwestern Railway.

Dan Ryan Expressway Extension.

It is proposed to provide a north-south rapid transit route in the median strip of the Rvan Expressway from 95th Street generally to 22nd Street and to the present elevated and subway system via a connection somewhere between 16th Street and 22nd Street. This facility will eventually connect with the new downtown subway now under study. The estimated cost of the Ryan extension with stations generally at one mile intervals and also equipped with escalators, is $27,000,000.

A $6,000,000 program of improving rapid transit line stations is recommended. The improved stations would include longer, wider platforms, modern passenger controls, escalators, and fluorescent lighted passageways and platforms. Radiant-heated waiting areas would be provided on the platforms.

These improved stations will offer better passenger service as well as contribute to the attractiveness of neighborhoods.

Garbage and Refuse Disposal—$15,000,000.

One of the most urgent needs is the construction of incinerators to dispose of garbage and refuse.

Disposal by incineration is the most modern and completely sanitary method available to the city. Approximately 66 per cent of the refuse collected today is destroyed at the city's three incinerators with a total capacity of 3,120 tons. At present the Department of Sanitation is collecting 4,400 tons of refuse daily and it is estimated that this will increase to 4,600 tons with twice-a-week refuse collection in densely populated neighborhoods.

There is no alternative to additional incinerators since the transfer of refuse to distant sites outside the city limits is, for the most part, not permissible under a state statute which prohibits one municipality from dumping refuse within a mile of the corporate limits of another municipality.

A $15,000,000 bond issue, together with approximately $1,500,000 currently available from previous bond issues will allow a $16,500,000 program to be accomplished within the next four to five years. A list of the projects follows:

Incinerators.

Two additional incinerators of 1200 tons capacity each are needed to serve the Northwest and Central sections of the city more economically and effectively. Plant #4 would serve a predominantly residential area in the Northwest sector of the city. Approximately ten wards would be served by this facility. At the present time this refuse is sent to a north side trailer transfer station and three private incinerators located outside the city limits.

The Central Incinerator (Plant #5) will serve the Central Section of the city and due to its planned accessibility it will serve as an alternate for all other incinerators when plant capacities are periodically reduced for necessary maintenance of furnace equipment. This plant will also allow for projected future increases in refuse volume. This additional capacity will become increasingly important as the existing incinerators become older. These incinerators are estimated to cost between $6,400,000 and $7,200,000 based upon a 1200 ton per day capacity. A total program of $13,600,000 for incinerators is recommended.

Bulky Trash Incinerators and/or Grinding Stations.

There is an ever increasing volume of bulky trash being collected by city forces. This material cannot be taken to an incinerator designed for refuse destruction. Instead, special incinerators of a batch type with a minimum of mechanical equipment are required. Another solution is the development of facilities for grinding combustible refuse and rehauling it to special incinerators. With either system three stations would be required spread geographically throughout the city. These are estimated to cost $300,000 each for a total program of $900,000.

Purchase of Disposal Sites.

The disposal of garbage and refuse by incinerators results in a non-organic residue that together with street dirt and debris will total 1,000,000 cubic yards annually. The proposed bond issue will provide approximately $2,000,000 for the purchase of sites to dispose of the residue for the next few years.

Police, Fire, Health, Sanitation, House of Correction, Navy Pier, Municipal Buildings and Equipment—$36,000,000.

A $36,000,000 bond issue is proposed to continue the modernization of facilities for improved service to the public. Modern well located public buildings will provide greater police and fire protection as well as more accessibility to the residents of the community. Further, municipal buildings should be an asset to the community in their physical attractiveness. This bond issue includes buildings and facilities for the Police Department, Fire Department, Board of Health, Streets and Sanitation offices, House of Correction, and Navy Pier.

Police Department.

This bond issue will provide $13,500,000 for new police facilities which will afford functional consolidation, improved police administration and the elimination of inadequate and poorly located accommodations as well as contribute to the reduction of crime. The specific projects follow:

1. Construction of a new south wing at Police Headquarters to accomodate the courts and related activities now at 11th and State together with the Narcotics Court now at 26th Street and California Avenue at a cost of $1,600,000.

2. Remodeling of floors 7 through 13 at Police Headquarters to complete the modernization program and to allow the consolidation of traffic administration and other departmental expansion at a cost of $1,200,000.

3. Construction of 4 combination District Station—Area Headquarters complexes at a cost of $2,500,000 each. These facilities would include a court room, lock up, automotive service building and off-street parking. These facilities would be generally located as follows:

Proposed Facility and General Location	*Buildings to be Vacated*
1st Area and 2nd District South Park and 53rd Street	1st Area Headquarters 756 E. 56th Place Leased from Park District
	2nd District Station 4802 S. Wabash Erected 1917

5th Area and 14th District Fullerton and Pulaski Road	5th Area Headquarters 14th District 2138 N. California Erected 1908
	3737 W. Lawrence Rented Garage—Leased

4. Construction of two new District Stations at a cost of $350,000 each:

Proposed Facility and General Location	*Buildings to be Vacated*
4th District Station	South Chicago 2938 E. 89th Erected 1895
3rd District Station	Grand Crossing 834 E 75th Street Erected 1909

Fire Department.

The proposed bond issue will provide $8,000,000 for Fire Department building and equipment needs and will afford greater protection to neighborhoods. The building program includes fifteen new fire department buildings which will greatly accelerate a program of eliminating obsolete buildings, some of which were designed for horse drawn apparatus. The construction of multiple company stations at new locations will eliminate a total of 30 buildings which average over 65 years of age.

Using an estimated cost of approximately $330,000 per building, the program allocates $5,000,000 for new buildings. These are listed according to priority by proposed location and buildings to be vacated:

	Proposed Location	*Buildings to be Vacated*
1.	71st & Pulaski Road	816 N. Laramie, 58 years old 1401 S. Michigan, 51 years old

In addition to providing properly designed and located buildings, the proposed bond issue will permit the replacement of 65 pieces of worn out and obsolete apparatus. Taking into account equipment currently being purchased, the proposed program would replace 41 engines at a cost of $30,000 each, 16 hook and ladders at a cost of $40,000 each, 6 ambulances at a cost of $13,000 each and 2 snorkel units at a cost of $34,000 each. This will eliminate all engines and hook and ladders currently from 17 to 37 years old, snorkel units now 10 years old and ambulances after 7 years of service.

Fire Alarm System Improvements totalling $1,000,000 are required to improve the fire defenses of the city and to insure Chicago's enviable insurance rating as established by the American Insurance Association. These improvements would contribute directly to the saving of lives and the protection of property by insuring speed and reliability of fire alarm communications:

2,000 Modern Fire Alarm Boxes.....$500,000

50 New Fire Alarm Boxes in Congested High Value Districts..... 150,000

The modernization of Fire Alarm Communication Equipment in the Central Fire Alarm Office..... 350,000

Neighborhood Health Centers.

The proposed bond issue provides $5,000,000 for the development of three public health neighborhood medical care centers. The bond funds would be supplemented by $2,500,000 anticipated from federal sources to meet their estimated cost of $2,500,000 each.

The centers would serve as a base for the provision of preventive medical services for all citizens and health services and medical care to the medically indigent. They would offer diagnosis, out patient treatment and a mental health day care center in addition to the activities typically offered in a District Health Center. From these centers, public health nurses would work in the surrounding community to visit families as a health advisor and coordinator.

The centers would be located on the North, West and South sides of the City in locations, easily accessible to the people of the community. These centers would be largely staffed on a contractual basis utilizing federal, state and local funds.

Streets and Sanitation Offices.

In order to administer the sanitation and street maintenance activities through the City, the Department of Streets and Sanitation requires offices and yards strategically located acccording to geographic area and activity.

The proposed bond issue would provide $1,500,000 for the erection of 12 to 13 new facilities. All would eliminate dilapidated and inadequate buildings.

These new offices and yards will replace:

Eight obsolete buildings that were constructed in 1880, 1890, 1896, 1903, 1915, (2), 1920 (partially destroyed) and 1927 (frame).

Six facilities in rented quarters.

Two quarters that are overcrowded where located in combination with adjacent districts.

Two locations within incinerator facilities.

House of Correction.

The proposed bond issue would provide $5,000,000 to replace the North Cell House and Women's Cell House at the House of Correction with modern structures, to rehabilitate existing buildings, and to provide a new diagnostic educational, vocational complex. The specific projects include:

1. Demolition and replacement of the North Cell House (erected in 1888) with a combination dormitory and maximum security building having a capacity of 250 prisoners at a cost of $1,600,000.

2. Provision of a hot water system for the laundry building (erected in 1888) and modernization of plumbing and electrical systems in the West Cell House (erected in 1909) both at a cost of $400,000.

3. Demolishing and replacement of the Women's Cell House (erected in 1907) with a modern domitory type facility having a capacity for approximately 100 women inmates at a cost of $500,000.

4. Construction of a diagnostic, educational, vocational complex and halfway house type domitory accommodating 250 specially selected inmates at a cost of $2,500,000. This facility is particularly intended to promote the rehabilitation of prisoners and reduce the likelihood of them becoming repeaters.

Navy Pier Improvements.

The proposed bond issue provides $3,000,000 for improvements in Navy Pier and its general vicinity which are required both for continuing structural safety and efficiency. Improvements to make the Pier more attractive will be undertaken and its use as a recreational facility will be further developed for the enjoyment of our citizens. The specific projects follow:

1. Provide underpinning and recapping of deteriorated piling supporting the north side of Navy Pier similar to the renovation previously performed on the south side at a cost of $1,000,000.

2. Install a modern fire sprinkling system in the southwest quadrant of the pier to replace an obsolete system now serving the cargo areas at a cost of $500,000.

3. Rehabilitate the west facade of Navy Pier, install new roofing and replace two deteriorated water supply lines at a cost of $700,000.

4. Rehabilitate the "Dime Pier" south of Navy Pier for recreational use at a cost of $800,000.

Summary.

There are many urgent reasons why this comprehensive bond issue should be passed. It is the modernization of our physical plant, through capital improvements, which has changed the face of our city and created confidence among investors so that millions upon millions of dollars are being invested in one of the greatest building booms in the history of the City of Chicago.

There is no cause of greater concern to all people than employment. The strength of the city comes from jobs—industrial and commercial. The city must create a better environment for industry and commerce so that it may retain existing firms and encourage new ones to locate here. In order to accomplish these objectives numerous needs must be satisfied. Job-creating activities require adequate space for present use and expansion, improved sanitation and lighting, modern mass transportation, efficient police and fire protection and a favorable community environment. These are basically public improvements which are the responsibility of local government.

Just as any business must improve its physical plant if it is to expand and be economically sound —so must the city. Chicago today is one of the great cities of the world because its voters have approved essential bond issues. It cannot maintain this position, however, unless it has the funds

to build those facilities which are essential to safety, health and economic well-being.

Our main theme is building and rebuilding. Every neighborhood has resources—material and spiritual —which, combined with city services and facilities, can make a better neighborhood for every family.

A vote for the bond issues is a vote for Chicago and its people.

John F. Boland, Petitioner-Appellant vs. Industrial Commission of Illinois and City of Chicago—Water Distribution Division, Respondents-Appellees, Illinois Supreme Court No. 39339. The Illinois Supreme Court on March 24, 1966 filed an opinion affirming the judgment of the Circuit Court of Cook County which had affirmed the Industrial Commission's denial of compensation to the petitioner. This cause of action by John F. Boland, an employe of the City of Chicago who filed an application for adjustment of a claim under the Workmen's Compensation Act. The case was heard by an arbitrator who awarded compensation which was set aside by the Industrial Commission which found that the plaintiff had sustained no permanent disability or any reduction in earning capacity for which compensation is payable. The Circuit Court of Cook County affirmed the Commission's decision.

Sophia Phillips, Appellant, v. Illinois Bell Telephone Company et al., Appellees Benjamin F. Fohrman et al., Appellants, v. Illinois Bell Telephone Company et al., Appellees, Docket Nos. 39221, 39287 consolidated. The Supreme Court of Illinois on March 24, 1966 affirmed the judgment of the Circuit Court of Cook County which held that the complaints filed by the above named plaintiffs did not allege facts showing the improper payment for collection of Illinois Messages Tax as provided by statute and therefore did not state proper cause of action. The Supreme Court, in affirming said judgment, held that the telephone transmission referred to was a service of the Illinois Bell Telephone Company and not one rendered by plaintiffs or members of their class; that it is the Illinois Bell, rather than the hotel subscriber, who is in the business of transmitting messages and, therefore, the subscriber hotel is not rendered liable for the transmission of taxes levied by the State of Illinois and the City of Chicago under the Illinois Messages Tax Act.

President Johnson Commended for Proposing Federal Legislation to Insure Non-Discrimination in Sale or Rental of Housing, and Congress Urged to Take Favorable Action.

By unanimous consent Aldermen Campbell, Collins, Holman, Metcalfe and Miller (on behalf of himself and for Alderman Harvey) presented the following proposed resolution:

WHEREAS, The President of the United States, Lyndon B. Johnson, has asked the Congress of the United States to enact legislation which would declare a national policy against racial discrimination in the sale and rental of all housing and create effective remedies against that discrimination in every part of America; which would reform federal criminal statutes to protect all who labor or speak for racial justice against interference with the exercise of civil rights; which would prevent racial discrimination in the selection of juries in both federal and state courts; which would broaden the authority of the Attorney General to initiate action to desegregate schools and other public facilities and bring the legal resources of the federal government to bear where they are now needed.

WHEREAS, The President has again demonstrated great courage and understanding in his efforts to make clear to the world and to every state and city the national policy on these basic tenets of American citizenship.

WHEREAS, The need for federal legislation is apparent by reason of the unwillingness of the states to halt this insidious denial of equality and to secure for their citizens these necessary incidents to their citizenship. In our State of Illinois, where we have tried to deal with the subject of fair housing this City Council has many times memorialized the General Assembly to adopt fair housing laws for our state. In our State Legislature, the House of Representatives has repeatedly and with sizable majority passed bills directed at eliminating this evil. The Illinois Senate, however, has repeatedly turned its back to this problem and has historically with callous disregard for any solution, defeated every measure presented to it to effectively deal with fair housing practices, now, therefore,

Be It Resolved by the City Council of the City of Chicago, That the Mayor and members of the City Council commend President Lyndon B. Johnson for his leadership and resoluteness in meeting the problems of the day with decisive and definitive action; and

Further Be It Resolved, That we urge the members of the Congress of the United States to swift and favorable action on the President's legislative proposals.

Alderman Campbell moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

On motion of Alderman Campbell (seconded by Aldermen Hoellen, Collins, Miller, Metcalfe, Despres, Sperling, Chew, Keane, Sain, Murray and Bohling) said proposed resolution was *Adopted,* unanimously.

Alderman Campbell and the seconding aldermen speaking on the foregoing resolution commended the President for his introduction of the legislation now pending before the Congress, which, if enacted, will supplement and make present civil rights laws more effective.

Therefore, the Judiciary Committee will, in due time, in the not too distant future, schedule hearings; notwithstanding the fact that the situation is, as stated, calm and peaceful.

Respectfully submitted,

WHEREAS, Almighty God in His infinite wisdom has called to his eternal reward the Honorable Hugo M. Friend, Judge of the Circuit Court of Cook County, on April 29, 1966; and

WHEREAS, Judge Friend served this community and its people with great integrity, legal capacity and dedication and devotion to the cause of the administration of justice for more than fifty-eight years, having been not only an eminent lawyer and jurist, but a civic leader as well; and

WHEREAS, Judge Friend was born in Prague, Czechoslovakia; his parents immigrated to Great Bend, Kansas, and moved to Chicago in 1890, where he attended public schools; he received degrees of Bachelor of Philosophy and Doctor of Jurisprudence from the University of Chicago; his undergraduate endeavors were underscored by his interest in athletics, having been captain of the University of Chicago track team and a member of the United States team at the Olympic games held in Athens in 1906; and he served as former president of the United States Olympians, a group of former Olympic athletes; and

WHEREAS, Judge Friend practiced law in the City of Chicago, and was appointed a Master in Chancery and was subsequently appointed to the Circuit Court bench, thereafter having been elected to serve seven terms on the Circuit Court of Cook County, beginning in 1927. He was assigned to the Illinois Appellate Court from 1931 to 1964, and was most recently elected to the Circuit Court of Cook County in 1964. He was a member of the Chicago, American and Illinois Bar Associations; and

WHEREAS, Hugo M. Friend was vitally interested in civic and humanitarian affairs; he was Vice President and Trustee of Rush Medical College, a Director of the Jewish Welfare Fund, the Jewish Federation of Metropolitan Chicago and the Jewish Charities of Chicago, and he was former President of the Children's Bureau; and

WHEREAS, His reputation for fairness, compassion and kindliness was widespread and he was known for his high ideals and firm loyalties to his friends, to his fellow citizens and to mankind; now, therefore,

Be It Resolved, That the Mayor and the members of the City Council in meeting assembled this 6th day of May, A.D. 1966, do hereby publicly acknowledge our esteem for Hugo M. Friend and our deep sense of loss, and extend to his bereaved widow, Sadie, his sons, Hugo M., Jr., and Robert M., and his daughters, Marian and Suzanne, our most sincere condolences; and

Be It Further Resolved, That as a mark of respect to his memory, this Resolution be incorporated in the permanent Record of Proceedings of the City Council, and that a copy thereof be presented to the family of Hugo M. Friend.

Alderman Goldberg moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

Alderman Goldberg moved to *Adopt* the foregoing resolution. The motion Prevailed and said proposed resolution was *Adopted,* unanimously, by a rising vote.

In making his motion Alderman Goldberg paid tribute to the ability, integrity, loyalty and compassion which had guided the life of the late jurist in dedicating his time and energies in athletic, civic and humanitarian activities, apart from his outstanding record in the legal profession. He concluded his remarks by recommending Judge Friend's life and record as an example to young people who might be contemplating a legal career.

Tribute Paid to Late Mrs. Mary Bohling.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council submitted the following proposed resolution:

WHEREAS, The Mayor and the members of the City Council were deeply saddened at the news of the death of the mother of one of its oldest serving members, Alderman Nicholas J. Bohling; and

WHEREAS, The Council recognizes that God in His infinite wisdom affects the lives of all men, and knowing that Mary Bohling will now be rewarded for a life well lived, blessed with long years in the satisfaction, among many others, of having had a very able and dedicated son who has devoted his life to public service; and

WHEREAS, There is little that can be said in expressing the heartfelt sympathy and deep affection of the City Council for the family of Mary Bohling that could possibly add to the personal expressions which have been extended to our colleague, Alderman Nicholas J. Bohling; now, therefore,

Be It Resolved, That the Mayor and the members of the City Council in meeting assembled this 6th day of May, A.D. 1966, do hereby tender our sincerest sympathy to Alderman Nicholas J. Bohling on the occasion of the death of his mother, Mary Bohling.

Committee consideration was dispensed with by unanimous consent, and on motion of Alderman Keane said proposed resolution was *Adopted,* unanimously, by a rising vote.

Aldermen Keane, Campbell and Buchanan addressed the Council to pay personal tribute to the memory of the late mother of Alderman Bohling, remarking that

she was well known in the southeast area of the city for her neighborliness and for her sincere love of all mankind. They stated that she had taken great pride in her contribution to the City's welfare in the rearing of a son who had benefited by the ideals he had absorbed from her and her beliefs, becoming a successful attorney and an active member of the City Council.

Honorable Richard J. Daley, Mayor, thereupon addressed the Council to extend his personal sympathy to Alderman Bohling in the loss of a mother whose virtues could be summarized by describing her as "a fine Irish mother", particularly at a time when the nation is paying its respects to all mothers.

Alderman Bohling acknowledged the Mass cards and other tokens and expressions of sympathy extended to him on the death of his mother.

Tribute Paid to Late Kathleen Doherty.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council submitted the following proposed resolution:

WHEREAS, The members of the City Council of the City of Chicago, as well as all of the citizens of the City of Chicago, were deeply saddened at the news of the tragic death of Kathleen Doherty; and

WHEREAS, Kathleen Doherty at the age of thirteen years, while in the course of showing that greatest love that any human can demonstrate, sacrificed her life to save the life of Joseph Cecala, aged two years, whose baby carriage was in the path of an automobile, and by this selfless act of rescue her own life was ended; and

WHEREAS, There is little that the members of the City Council can express except the confidence that God in His infinite wisdom will have suitable rewards for this lovely, innocent child, who laid down her life for her neighbor; now, therefore,

Be It Resolved, That the members of the City Council of the City of Chicago hereby express our deepest and most sincere sympathy to her parents and family; and

Be It Further Resolved, That a suitable copy of this memorial resolution be presented to them as an expression of the love and affection, sympathy and understanding which are felt throughout our City.

Committee consideration was dispensed with by unanimous consent, and on motion of Alderman Keane said proposed resolution was *Adopted,* unanimously, by a rising vote.

In making his motion Alderman Keane asserted that the heroic action of the thirteen-year old girl who had sacrificed her life to save the little two-year old boy should not pass without official recognition of her sacrifice, and he extended sympathy to the grieving family.

Also a communication from the Department of Law, signed by Marsile J. Hughes, Assistant Corporation Counsel and Sydney R. Drebin, Head of Appeals and Review Division, advising the City Council that on April 25, 1966 the Appellate Court of Illinois, 1st District, filed an opinion in the cause entitled *Van J. Paulus, Plaintiff-Appellee, vs. Sidney D. Smith, Acting Commissioner of Buildings of the City of Chicago et al., Defendants-Appellants, Appellate Court No. 50008,* reversing a permanent injunction order of the Circuit Court of Cook County which had restrained the City and its employes from revoking electric sign and sign board permits where the permits and construction did not comply with applicable City and Zoning Ordinance provisions. The Acting Commissioner of Buildings and Electrical Inspectors after an investigation which revealed that the plaintiff had erected an electric sign and sign board which did not comply with ordinances regulating to the distance of such signs within 400 feet of expressways revoked the permits for said violations; in reversing the judgment, the Appellate Court held that the regulations of bill boards is not so much a regulation of private property as it is a regulation of public thoroughfares within the police power of the State and that the ordinance which prohibits advertising signs within 400 feet of the expressway is a proper use of the police power; the Appellate Court also interpreted the place "center line of expressway roads to mean the center line of any line of approaching traffic in the expressway" and remanded the case to the Circuit Court to afford plaintiff a further opportunity to produce evidence of his compliance with the City's ordinances.—*Placed on File.*

On motion of Alderman Keane the City Council took up for consideration the report of the Committee on Finance deferred and published April 29, 1966, pages 6683-6685, recommending that the City Council pass a proposed ordinance transmitted with the Committee's report to call a special election to be held on June 14, 1966, for the purpose of submitting to the electors of the City of Chicago the several questions of authorizing the issuance of City of Chicago bonds in the total amount of $195,000,000.00.

Alderman Keane moved to concur in the committee's recommendation and *Pass* the proposed ordinance transmitted therewith.

Alderman Despres (seconded by Alderman Hoellen) moved to Re-refer said proposed ordinance to the Committee on Finance.

During remarks on the pending proposed ordinance made by Alderman J. P. Burke, Alderman Despres raised a point of order that the remarks being made by the Alderman were a reflection on another member of the City Council. The Chair declared the point of order *not well taken.*

Alderman Despres then moved to Appeal the decision of the Chair.

The Chair then put the question *"Shall the Decision of the Chair be Sustained?"*. The decision of the Chair was *Sustained* by yeas and nays as follows:

Yeas—Aldermen Harvey, Metcalfe, Holman, Miller, Bohling, Condon, Lupo, Buchanan, Danaher, Zelezinski, Healy, J. P. Burke, Krska, Murray, Fitzpatrick, Campbell, Yaksic, Janousek, Tourek, Collins, Marzullo, Zydlo, Sain, Provenzano, T. F. Burke, McMahon, Keane, Sulski, Brandt, Sande, Laskowski, Aiello, Cullerton, Laurino, Kaplan, Goldberg, Bauler, Rosenberg, Fifielski, Kerwin, Hoellen, Wigoda—42.

Nays—Aldermen Despres, Chew, O'Rourke, Sperling—4.

Yeas—Aldermen Harvey, Metcalfe, Holman, Miller, Bohling, Condon, Lupo, Danaher, Zelezinski, Healy, J. P. Burke, Krska, Murray, Fitzpatrick, Campbell, Yaksic, Janousek, Tourek, Collins, Marzullo, Zydlo, Sain, Provenzano, T. F. Burke, McMahon, Keane, Sulski, Brandt, Sande, Laskowski, Aiello, Cullerton, Laurino, Kaplan, Goldberg, Bauler, Rosenberg, Fifielski, Kerwin, O'Rourke, Wigoda, Sperling—42.

Nays—Aldermen Despres, Buchanan, Chew, Hoellen—4.

Alderman Hoellen (seconded by Alderman Despres) then moved to amend Sections 1, 2, 4 and 5 of a proposed ordinance to call a special election for approval of certain bond issues as printed in the Journal of the Proceedings of the City Council of the City of Chicago of April 29, 1966, appearing on pages 6683 to 6685, inclusive, by deleting "June 14, 1966" and substituting in lieu thereof the words and figures "November 8, 1966' wherever they appear in said sections.

After debate, Alderman Krska moved to *Lay the Motion to Amend on the Table.* The motion to Lay on the Table *Prevailed,* by yeas and nays as follows:

Yeas—Aldermen Harvey, Metcalfe, Holman, Miller, Bohling, Condon, Lupo, Buchanan, Danaher, Zelezinski, Healy, J. P. $20,000,000—Alley and Street Lighting System Bonds;

$36,000,000—Municipal Building Bonds.

Alderman Keane raised a point of order that the motion was improper, was not complete and the Council could not act upon it, because it did not strike the form of ballots to be submitted, and the ordinance would continue to include language which would make the ordinance null and void.

The point of order was *Sustained* by the Chair.

The main question thereupon being put, on the passage of the pending proposed ordinance, the motion Prevailed and said proposed ordinance was *Passed,* by yeas and nays as follows:

Yeas—Aldermen Parrillo, Harvey, Metcalfe, Holman, Miller, Bohling, Condon, Lupo, Buchanan, Danaher, Zelezinski, Healy, J. P. On motion of Alderman Keane the said proposed ordinance was *Passed,* by yeas and nays as follows:

Yeas—Aldermen Parrillo, Harvey, Metcalfe, Holman, Despres, Miller, Bohling, Condon, Lupo, Buchanan, Danaher, Zelezinski, Healy, J. P. The following is said ordinance as passed:

WHEREAS, The City Council of the City of Chicago passed an ordinance on May 6, 1946 (C.J. p. 5638) authorizing the Commissioner of Public Works to execute an agreement with the Federal Government for acceptance by the City of $100,000.00 from the Bureau of Advance Planning in connection with the proposed elimination of existing railroad grade crossings at the C.M.St.P. & P. RR. tracks between N. Elston Avenue and the City Limits, and

WHEREAS, The Federal Government advanced an initial sum of $50,000.00 or one half of the total amount authorized in the agreement dated May 15, 1946 to the Commissioner of Public Works, who caused to be prepared preliminary studies, plans and estimates for the Public Works described as "Bridges, Viaducts and Additional Thoroughfares for the elimination of existing railroad grade crossings (N. Elston Avenue to City Limits, over the C.M.St.P. & P. RR. identified as Application No. Ill. 11-P-541.)", and

WHEREAS, After plans were prepared at a cost of $28,840.88 the City instituted proceedings before the Illinois Commerce Commission in 1949, to compel the C.M.St.P. & P. RR. to participate in the development of either of two schemes (1) an overhead crossing for each of five intersections namely at N. Central, N. Caldwell, W. Devon, N. Hiawatha and W. Touhy Avenues; and depress the railroad

tracks from City Limits at W. Touhy Avenue to N. Elston Avenue and construct bridges at street grade over the tracks at each intersection; the Commission after hearing the case, entered an order on December 16, 1952, denying the City's petition. A re-hearing was also denied and the Corporation Counsel on March 8, 1953 rendered an opinion stating that it would be futile to appeal to the courts, in this case, and

WHEREAS, After several conferences were held between the City's Engineers and the Federal Agency it was agreed that under the circumstances it would be futile to continue with further planning and also agreed that the advance planning account be closed and any unused funds be returned to the Federal Agency, and

WHEREAS, An ordinance passed April 22, 1952 (pp. 4562-63), authorized the Commissioner of Public Works to execute a supplemental agreement included therein, which authorized the refunding of the unused portion of the initial amount of $50,000.00 received for advance planning, or the sum of $21,129.12, and

WHEREAS, The supplemental agreement was executed, and still there is no reasonable likelihood of the planned project or any portion thereof being undertaken because of the Illinois Commerce Commission order. The Commission then ordered as a substitute, that the City install traffic flow signals syncronized with railroad flasher lights and gate operations to further protect pedestrian and vehicular traffic. After a thorough study by our traffic engineers, this was done, with the result that fewer accidents, none of them fatal, have occurred at the said intersections. The completion of Edens and Kennedy Expressways also help relieve through traffic on the above crossings and this together with the installation of the new signals, make conditions more suitable and appropriate for regulating traffic in Edgebrook in the vicinity of the C.M.St.P. & P. RR. tracks at this time. The preliminary plans and geometrics made more than 20 years ago thus have become obsolete and a new approach should be made to any future traffic development for this area; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That as there is no reasonable likelihood of the public work described as "Bridges, Viaducts and Grade Separations—New Grade Separation Structures, Bridges and Additional Thoroughfares for the elimination of existing railroad grade crossings (N. Elston Avenue to City Limits over C.M.St.P. & P. RR.; identified as Application No. Ill. 11-P-541)", ever being constructed as planned with Federal advance funds, the Secretary of Housing & Urban Development is hereby requested to make a determination that the Supplemental Agreement authorized in an ordinance passed April 22, 1953 be terminated and that the Commissioner of Public Works be relieved of all liability thereunder.

SECTION 2. That the City Comptroller is hereby authorized and directed upon the approval of the Commissioner of Public Works and after the approval of the Corporation Counsel as to form and legality to return the sum of $2,402.86, being the unexpended balance of $28,840.88 retained for advance planning, which item appears as Fund No. 642 of City Comptroller's Report 1964 in Part II, Section 7 under the title "Trust and Miscellaneous Funds".

SECTION 3. This ordinance shall be in effect from and after its passage.

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Water and Sewers is hereby authorized and directed to execute on behalf of the City of Chicago, and the City Clerk to attest, upon approval of the Corporation Counsel, as to form and legality, an Agreement between the Pennsylvania Railroad Company and the City of Chicago, permitting the City to install a water main in Railroad property in the vicinity of W. 107th Street and S. Throop Street, to be substantially in form as follows:

THE PENNSYLVANIA RAILROAD COMPANY

Longitudinal Occupation Agreement for Electric Transmission Lines (Power or Communication) or Pipe Lines on Right-of-Way and Other Property of the Railroad Company.

This Agreement, made this sixth day of May, in the year of our Lord one thousand nine hundred and sixty-six (A.D. 1966) by and between The Pennsylvania Railroad Company, operating the railroad of The Philadelphia, Baltimore and Washington Railroad Company, hereinafter called the Railroad Company, party of the first part, and City of Chicago, Water Distribution Division, City Hall, Chicago, Illinois, a corporation organized and existing under the laws of the State of Illinois, hereinafter called the Licensee, party of the second part, Witnesseth:

I. Preamble of Occupation:

Whereas, The Licensee desires to construct, operate and maintain certain pipe lines and appurtenances, (such pipe lines, as are herein described, together with their appurtenances, are hereinafter for convenience referred to as "pipe lines and appurtances") on the right-of-way or property of

the Railroad Company, which are described in general terms and expressed in purpose as follows:

(a) Location: — Chicago Division — Logansport Branch.

1. Between mile post 297 plus 4,893 feet, and mile post 297 plus 5,173 feet.
2. Name of nearest station, Chicago.
3. County, Cook.
4. State, Illinois.

(b) Purpose:

Pipe Lines: (Water).

(c) Description of the construction (naming pressure expected on pipe lines) and occupational sufficient for determining upon the adequacy of strength and for computation of "fees and rental charges." (See Note 1.).

Temporary longitudinal occupancy by one (1) 30-inch water main—Length of occupancy—280 feet, more or less.

II. Terms:

Therefore, The Railroad Company, in consideration of the payments and privileges herein named, hereby grants to the Licensee, insofar as the Railroad Company's present title enables it so to do, the right to construct, use, maintain, renew and remove the said pipe lines, and appurtenances at the said location upon and under the following terms and conditions, to wit:

First. The Location of pipe lines, and appurtenances shall be as set forth and shown on Plan marked "Exhibit A", hereto annexed and made a part hereof.

Second. The pipe lines and appurtenances shall be constructed, maintained, renewed and operated in accordance with the exclusive purpose stated in Section I, "Preamble of Occupation" excepting only when modifications thereof or departures therefrom have been subsequently agreed to in writing by the parties hereto; which plans and the construction and maintenance of the structure shall be in conformity with the specifications and protective requirements for each class of structure following:

Pipe Lines (Water).

2. All pipe lines conveying water shall be manufactured, constructed, laid, and maintained, together with auxiliary or protecting casing-pipe, when required, in accordance with the standard specifications of the American Water Works Association, or shall meet with the requirements and approval of the Railroad Company.

(a) The strength of material, thickness, and weight of pipe shall be designed to withstand the pressure under which this line will be worked, as named in Section I, "Preamble of Occupation," Clause (c).

(b) Accessible emergency shut-off valves are required within effective distance of locations selected by negotiating agent of the Railroad Company where hazard to life and property should be guarded against.

3. Pipe Depth—Pipe lines conveying gas (natural or artificial), oil, gasoline or other flammable matter, or water, under the main tracks and sidings must be laid at a depth of at least five (5) feet from the base of rail to the top of the pipe line, or its casing when encased. Under yard—and side tracks and industry tracks not grouped with the right-of-way tracks above, the depth of pipe line may be reduced to 4 feet, which is also the minimum depth required for pipe lines below the ground surface unoccupied by tracks.

4. Pipe Casing—Pipe lines for transmission of gas (natural or artificial), oil, gasoline or other flammable matter, or water must be laid without depressions of line inside a protecting casing-pipe under the following conditions:

(a) In all cases for water transmission, A.R.E.A. Specifications for Pipe Line crossings under Railway Tracks—Part "B" non-flammable substance, will govern for crossing under a group of main tracks and passing sidings.

(b) In all cases for flammable gas and oil transmission under a group of main tracks and passing sidings regardless of pressure. If the location is such that the casing may become partly filled with water from the outside at a pipe-end, one or both ends of the casing should be packed with hemp, and a vent pipe of not less than 2 inches diameter, with a pipe elbow 12 inches above ground and turned from the tracks, be provided at the point where gas fumes may be expected to accumulate.

(c) The encasing-pipe shall be laid across the entire width of a right-of-way as distinguished from area-land, unless the right-of-way line on either side of the tracks is less than 25 feet from the center of the nearest track, in which case the casing shall be extended to the 25-foot rectangular distance from the center line of the nearest track, although beyond the right-of-way line.

(d) A casing will not be required over pipe lines laid under land unoccupied by tracks, except at places where the Regional Manager of the Railroad Company considers that a considerable degree of hazard will be created.

5. No pipe line carrying gas (natural or artificial), oil, gasoline or other flammable matter shall be laid through or under bridges or culverts, except in cases especially provided for.

6. No pipe line shall be laid through or under bridges or culverts where there is likelihood of restricting the area required for the purpose for which the bridges or culverts were built, or endangering foundations of important structures.

Third. No attachment of pipe lines and appurtenances shall be made to any bridge (or its supports) of the Railroad Company unless specifically provided for in this agreement, and then only in accordance with the Railroad Company's plans and specifications.

Fourth. If the Licensee desires or is required, as herein provided, to revise, renew, add to or alter in any manner whatsoever the above mentioned pipe lines (including also any change in operating pressure) and appurtenances, it shall submit plans to the Railroad Company and procure the written approval of the Railroad Company thereto before any work or alteration of the structure is performed and the terms and conditions of this contract with respect to the original consruction shall apply thereto, except as to rentals which shall be mutually agreed upon.

Fifth. The Licensee shall at all times be obligated promptly to maintain, repair and renew said pipe lines, and appurtenances, and shall in any event upon notice in writing from the Railroad Company requiring it so to do, promptly make such repairs and renewals thereto as may be required by the Railroad Company, or the Railroad Company for the purpose of protecting and safeguarding its property, traffic, patrons, or employes from damage or injury, may with or without notice to the

Licensee at any time make such repairs and renewals thereto and furnish such material therefor as it deems adequate and necessary.

Sixth. The Licensee shall, upon request in writing of the Railroad Company, promptly change the location of said pipe lines, and appurtenances covered by this agreement, where over, upon or in the property and facilities of the Railroad Company to permit and accommodate changes of grade or alignment and improvement in or additions to the facilities of the Railroad Company upon land now or hereafter owned or used by the Railroad Company to the intent that said construction shall at all times comply with the terms and conditions of this agreement with respect to the original construction, or in the event of the lease, sale or disposal of the premises or any part thereof encumbered by this license, then the said Licensee shall make such adjustments or relocations in its facilities as are over, upon or in the property and facilities of the Railroad Company as may be required by the said Railroad Company or its grantee; and if the Licensee shall fail or refuse to comply therewith, then the duly authorized agents of the Railroad Company may make such repairs or adjustments or changes in location and provide necessary material therefor.

Eighth. All work herein contemplated, of whatever nature and for whatever purpose, shall be done and performed by the Licensee, and at such time and in such manner as may be approved by the Regional Manager of the Railroad Company or his duly authorized agent; or the Railroad Company may from time to time perform all or any part of such work as shall be included within the limits of its right-of-way and property.

Ninth. (a). The supervision of the work performed and the approval of the material used in construction, maintenance, repairs and renewals of the facilities covered by this agreement shall be within the jurisdictional right of the Railroad Company.

(b). The right of supervision over the construction work and inspection of structures from time to time thereof by the Railroad Company, shall extend for such distance on each side of the Railroad Company property as the method of construction and materials used may have an important bearing upon the strength and stability of the structure over upon or in the railroad property.

Tenth. If the Railroad Company deems it advisable, during the progress of any work of construction, maintenance, repairs, renewals, alterations, adjustments or removal of the pipe lines, and appurtenances of the Licensee, to place watchmen or flagmen for the protection of the property owned or in possession or control of the Railroad Company, or its employes, patrons or licensees, the Railroad Company shall have the right so to do, and the Licensee shall, upon bill being rendered, pay or refund the cost and expense thereof, plus fifteen (15%) per centum for supervision, but failure of said Railroad Company so to do or failure or neglect of such watchmen or flagmen shall in no event be construed as in any manner or degree affecting any obligations of the Licensee as provided for in Clauses Eleventh and Twelfth (a) and (b) hereof.

Eleventh. In the event that the Railroad Company shall do and perform any of the work herein mentioned or contemplated, whether of construction, maintenance, repairs, renewals, alterations, adjustments or removal of the pipe lines, and appurtenances of the Licensee, for and at the expense of the Licensee, said Licensee covenants and agrees to and shall indemnify, protect and save harmless the Railroad Company from all loss and damage to property, or injury to or death of persons growing out of or resulting from the performance of said work and whether attributable to the fault, failure or negligence of the Railroad Company, or otherwise.

Twelfth. (a). It is understood betwen the parties hereto that the operations of the Railroad Company involve some risk, and the Licensee as part of the consideration for this grant hereby releases and waives any right to ask for or demand damages for or on account of loss of or injury to the pipe lines (and contents thereof), and appurtenances of the Licensee that are over, upon or in the property and facilities of the Railroad Company, including the loss of or interference with service, thereof and whether attributable to the fault, failure or negligence of the Railroad Company, or otherwise.

(b). And the Licensee also covenants and agrees to and shall at all times indemnify, protect and save harmless the Railroad Company from and against all cost or expense resulting from any and all losses, damages, detriments, suits, claims, demands, costs and charges which the said Railroad Company may directly or indirectly suffer, sustain or be subjected to by reason or on account of the construction, placement, attachment, presence, use, maintenance, relocation or removal of the pipe lines, and appurtenances on or from the premises of the Railroad Company whether such losses and damages be suffered or sustained by the Railroad Company directly or by its employes, patrons or licensees, or be suffered or sustained by other persons or corporations, including the Licensee, its employes and agents who may seek to hold the Railroad Company liable therefor, and whether attributable to the fault, failure or negligence of the Railroad Company, or otherwise.

Thirteenth. All cost and expense, in connection with the installation, maintenance, repairs, renewals, relocations, alterations, adjustments or removal of the pipe lines, and appurtenances shall be borne by the Licensee, and in the event of work being performed or materials being furnished by the Railroad Company under its stipulated right to perform work of installation, maintenance, repairs, relocations, renewals, alterations, adjustments or removal under any section hereof, the cost so incurred, together with fifteen (15%) per centum for supervision and use of tools, shall be paid by the Licensee within thirty (30) days after presentation of bills.

Fourteenth. The Licensee shall also pay to the Railroad Company compensation as follows:

Reimbursement for engineering expenses incurred at request of applicant (if any)	None
Fee for preparation of papers and other incidental expenses	$50.00
Annual rental for use of right-of-way and property	$90.00

The first annual payment to be due as of the first day of June, 1966.

And a similar annual payment of $90.00 on the same day of each and every year thereafter until formal cancellation hereof.

In the event of the termination of this agreement by notice as hereinafter provided before the expiration of any such period for which compensation shall have been paid in advance by the Licensee, the Railroad Company shall refund to the Licensee the ratable and equitable proportion of

the compensation so paid for the period intervening between the date of such termination and the end of the period for which such payment shall have been paid.

Fifteenth. The rights conferred hereby shall be the privilege of the Licensee only, and no assignment or transfer thereof shall be made, or other use be permitted than for the purpose stated in the preamble, without the consent and agreement in writing of the Railroad Company being first had and obtained.

Sixteenth. Upon termination of this agreement or upon the removal or abandonment of the facilities covered hereby, all the rights, title and interest of the Licensee hereunder shall cease and determine, and this instrument shall thereupon become and be null and void, except only as to any rentals and liability accrued prior thereto, and the Licensee shall thereupon and without charge formally cancel this agreement, and the Licensee shall remove its said pipe lines, and appurtenances from the Railroad Company's property, and the right-of-way and all property of the Railroad Company shall be restored in good condition and to the satisfaction of the Railroad Company. If the Licensee fails or refuses to remove its structures and appurtenances under the foregoing conditions, the Railroad Company shall be privileged so to do at the cost and expense of the Licensee, and the Railroad Company shall not be liable in any manner to the Licensee for said removal.

Seventeenth. This agreement with the rights granted may be terminated at any time by either party hereto upon 30 days written notice to the other; and upon the expiration of the said 30 days after service of such notice, this agreement and the permission and privilege hereby granted shall absolutely cease and determine.

Eighteenth. This agreement shall take effect as of the first day of June, A.D. 1966.

In Witness Whereof, the said parties hereto have caused this agreement to be duly executed in the day and year first hereinbefore written.

[Signature forms and Exhibit "A" omitted.]

Carter, Public Vehicle License Commissioner, Defendants-Appellees, Illinois Supreme Court, No. 39510,* reversing the judgment of the Circuit Court of Cook County. Plaintiffs had filed a declaratory judgment action challenging the validity of Chapter 28.2 of the Municipal Code of Chicago providing regulations of privately-owned school buses. The Circuit Court had ruled that Chapter 28.2 was a valid constitutional ordinance. The Illinois Supreme Court, however, decided the City lacked statutory authority to pass said regulations and that the State law had pre-empted the regulation of privately-owned school buses; for these reasons the Supreme Court in their reversal of the judgment of the Circuit Court held that the ordinance regulating privately-owned school buses is unconstitutional and void. —*Placed on File.*

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadway(s) of the several street(s) heretofore specified between the points herein described, also the roadway(s) of all intersecting alley(s) extended from the curb line to the street line on each side of said specified street(s) between the points herein described, after removing trees therefrom shall be so graded by cutting for filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of the roadbed(s) is completed and the pavement herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified street(s) shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of each of said specified street(s) between the points herein described.

In all intersecting alley(s) herein specified at the street line(s) of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway(s) of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street line(s) of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb lines of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four (4) inches internal diameter and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices.

The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screenings will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screenings shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screenings and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature of 140 degrees F. shall be uniformly applied by a pressure distributor at a rate of one and one-half (1½) per gallons per square yard. Stone chips shall again be broadcast

and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R.S. 1 and R.S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: the Asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graduated in accordance with the following table, viz:

Asphaltic Concrete Surface Courses, Fine Dense Graded Aggregate Type.

Passing ½ inch sieve	95-100%
Passing ½ inch, retained on No. 4 sieve	45- 65%
Passing No. 4 retained on No. 10 sieve	10- 30%
Passing No. 10 retained on No. 40 sieve	5- 18%
Passing No. 40 retained on No. 50 sieve	7- 22%
Passing No. 80 retained on No. 200 sieve	5- 13%
Passing No. 200 sieve	4- 8%
Bitumen	5- 7%

(Table 45. llp. 247 State Specifications).

The asphaltic cement shall conform with the standard requirements of the Illinois State Division of Highways for Grade P.A. 6, Paving Asphalt, adopted January 2, 1952. It shall have a flash point (Cleveland open cup) 500 plus Fahrenheit. It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five-tenths (99.5) per cent of bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degress Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette Dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches. Immediately after the asphalt surface course shall be spread it shall be connected thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly and uniformly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

Concrete crosswalks shall be built at intersection only. Concrete crosswalks shall be built according to the Standard City Code of the City of Chicago.

The concrete shall conform to Class X Concrete (as described in this ordinance for curbs and gutters).

All existing catchbasins which are to be abandoned are located at the intersections of streets. Where existing catchbasins are to be abandoned, the outlet pipe connection from the catchbasin to the sewer shall be plugged and properly sealed and the corbel courses broken down and the catchbasin cleaned and filled with suitable material.

Additional masonry to be constructed where necessary. Pavement removal and restoration where necessary.

Said work is to be done in a workmanlike manner under the superintendence of the Board of Local Improvements of the said City of Chicago.

Section 2. That the recommendation of the Board of Local Improvements of the City of Chicago, providing for said improvement, together with the estimate of the cost hereof, including the lawful expenses attending the same, made by the engineer of said Board both hereto attached, be and the same are hereby approved.

Section 3. That said improvement shall be made and the cost thereof, including the lawful expenses attending the same, be paid by special assessment in accordance with an Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements", approved June 14th, A. D. 1897, and the amendments thereto, and that of said special assessment the sum of Fifteen Thousand Four Hundred Sixty-Nine and Fifty One-Hundredths Dollars ($15,469.50), not exceeding five (5) per centum of the amount of said assessment as finally determined after the completion of said improvement in accordance with Article 9-2 of said Act, shall be applied toward the payment of the cost of making, levying and collecting said special assessment, and of letting and executing contracts, advertising, clerical hire, engineering and inspection, court costs and deficiency in interest in

the matter of said special assessment, in accordance with the provisions of said Act.

Section 4. That the aggregate amount herein ordered to be assessed against the property, and also the assessment on each lot and parcel of land therein assessed shall be divided into five (5) installments in the manner provided by the statute in such cases made and provided, and each of said installments shall bear interest at the rate of five (5) per centum per annum according to law until paid.

Section 5. That for the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement (excepting such part, if any, that is chargeable to the City of Chicago for public benefits to public lands), bonds shall be issued payable out of said installments bearing interest at the rate of five (5) per centum per annum, payable annually, and signed by the Mayor and by the President of the Board of Local Improvements, countersigned by the City Comptroller and attested by the City Clerk under the corporate seal of the City of Chicago. Said bonds shall be issued in accordance with and shall in all respects conform to the provision of the Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements", approved June 14th, A. D. 1897, and the amendments thereto.

Section 6. That the Corporation Counsel be and he is hereby directed to file a petition in the Circuit Court of Cook County, Illinois, in the name of the City of Chicago, praying that steps may be taken to levy a special assessment for said improvement in accordance with the provisions of this ordinance and in the manner prescribed by law.

Section 7. That all ordinances, or parts of ordinances, conflicting with this ordinance be and the same are hereby repealed.

Section 8. This ordinance shall be in force from and after its passage.
